SUMMARY

Full-Stack Web Developer & Python Automation Specialist building React web applications, Node.js REST APIs, and automated Python scripts. Focused on delivering scalable software solutions and efficient data processing tools.

TECHNICAL SKILLS

- **Frontend**: React, Next.js, JavaScript, Tailwind CSS, HTML5, CSS3
- **Backend**: Node.js, Express, MySQL, REST APIs
- **Python & Automation:** Python 3.x, BeautifulSoup4, Requests, Webhooks
- **Tools & Environment:** Git, GitHub, Linux, VS Code

EXPERIENCE

Web Developer Intern | Birgunj Bazar | Kathmandu, Nepal

- Contributed to the development, optimization, and maintenance of production web applications.
- Collaborated on front-end features, ensuring responsive UI and cross-browser compatibility.
- Gained hands-on experience in debugging, codebase maintenance, and real-world project deployment.

PROJECTS

Algorithmic ER Triage & Resource Dispatch System

- Built a full-stack medical triage and bed allocation management system to optimize ER operations.
- Implemented dynamic patient priority algorithms and real-time resource tracking.
- Utilized React, Node.js, Express, and MySQL for a high-performance full-stack architecture.

Automated Web Scraper & Telegram Alert Bot

- Engineered an asynchronous Python script to scrape web targets for automated data updates.
- Extracted structured DOM elements via BeautifulSoup4 and dispatched Telegram webhook alerts.
- Secured API tokens and secrets using environment variables for safe production execution.

EDUCATION

Bachelor of Computer Applications (BCA)

Tribhuvan University | Kathmandu, Nepal

Expected Graduation: 2026

Higher Secondary Education (NEB)

National College of Computer Studies (NCCS) | Paknajol, Kathmandu
